

Annual Litres per 100k by Operator or Department

This report shows the annual usage, the annual fuel qty used (internal and external combined) and a calculated Litres per 100k for all vehicles. The report is grouped by Operator or Department and then by Litres per 100k so the most efficient is at the top of each group. Any vehicle which has a Litres per 100K figure 20% above the average for it's department is shown in **red**.
