

Hire Utilisation Analysis

This report gives hire statistics over any date range. Utilisation is shown as **red** if below 50%, **yellow** below 70% and **green** 70% and above. Double clicking on a vehicle shows hire contract information.

Note - If a vehicle is on a contract is/was on a contract which passes over the from and to date ranges then the from and to dates are used for calculating utilisation. e.g. If a vehicle is on hire from 20th Dec 2005 and was off hired 10th Jan 2006 then in the example below 10 days utilisation would be counted.
