Simplify your payroll and human resources with Wage Easy

Wage Easy Payroll HR is a software solution specially designed for Australian employment conditions. It's intuitive, easy-to-use and fully integrated.

If payroll processing is costing you time and money, you need Wage Easy. Wage Easy will drastically improve accuracy and efficiency and reduce the time required to complete cumbersome payroll tasks.

Make your life easier with Wage Easy:

- Combine your payroll and HR systems
- Eliminate manual award interpretation
- Rapidly and automatically calculate employee pays
- Collate time sheets remotely for automatic processing
- Flexible and comprehensive reporting
- Automate EFT transfers to banks, super funds, the ATO, child support and other deductions or salary packaging items
- Receive professional training and help desk support
- Multi user access
- Enjoy the best employee information management tools
- Comprehensive security protection
- General Ledger integration

Wage Easy is designed to grow with your business. A feature rich core product and smart add on options means seamless management as your employee base increases.

With a wide range of customers in many sectors including retail, hospitality, medical/health care, not for profit, construction and manufacturing, Wage Easy is a proven solution for fast, accurate payroll and HR processing.

Award interpretation

A unique feature of the core product is its award interpretation capabilities. Wage Easy provides excellent automated processing and data management. The award interpreter enables the operator to enter or import staff start and finish times and the award calculations that automatically occur result in accurate and fast pay slips first time, every time.

Even the most complex award structures are no longer a challenge for your payroll staff, being processed as effortlessly as a simple salary. At the same time, the program is flexible enough to accept Workplace or Enterprise Bargaining Agreements, you can include the conditions of their employment as unique modules in the interpreter.

With no human calculations required, this provides for greater accuracy with very little opportunity for keystroke error

Organisation and Statutory Compliance

Wage Easy's intuitive features help you comply with legislative, business and award requirements. Its in-built security functions ensure adherence to organisational policies from headquarters through to the most remote office branch.

Combine your Payroll and HR systems

You no longer have to manage two of your most critical business processes separately. They are inherently linked to one another, so why not use one solution for more accuracy and easier management?

Next Generation Employee Information Management

Take your employee management capabilities to the next level with Wage Easy. Include digital photos of your employees in personnel files, along with copies of certificates, qualifications, licences and relevant correspondence. Then link an employee's file to other relevant documents on your system such as contracts, agreements, appraisals and disciplinary documents.

Professional Training and Help Desk Support

Wage Easy is simple to use and intuitive, but to ensure your satisfaction we offer training to help you get the most from your new software. Your payroll and HR teams will be up and running quickly.

We can help you:

- define your cost centre/department structure
- set up AWA's, EBA's, awards and pay rate information
- set up the more complex functions like remote timesheet software
- provide a comprehensive 'walk through' using your data so you can see how it's going to work for you

The Wage Easy team are ready to talk with you today about your payroll and HR needs.
